Adam explained that they were proposing to build 2 storage units, 50 x 20 for a total of 20 units. The driveway would be placed on the straight part of the road and would be approximately 10 to 20 feet wide with a culvert, The units would be placed 50 feet from the road on under an acre of land. It would be totally fenced in with approximately 8 lights and would be open for regular business hours. There would be a small sign put up.

As the property is currently zoned agriculture, a special use variance would be needed to operate a commercial business.

Paul Sykes requested that a plot plan be made available as well as an actual special use variance application for the Zoning Board to review prior to making a decision. Also a description of the sign would be needed, Once these documents are received, the Zoning Board will review. They currently
